Set up your Microsoft 365 E5 sandbox

Choose your Microsoft 365 E5 developer sandbox:

- Instant sandbox**
Includes everything you need to build Microsoft 365 apps and solutions.

The sandbox is preconfigured with 16 fictitious users, Microsoft Teams sample data pack with App Studio and custom apps preconfigured, and data for Microsoft Graph, SharePoint, and Office Add-ins development.

This option does not require provisioning or manual set up. You create a password: your domain name is preconfigured and is not customizable.
- Configurable sandbox**
Configure your own sandbox from scratch. This subscription can take up to two days to provision and you must manually add sample data.

You can customize the domain name.

Domain name: mytenant.onmicrosoft.com

Renewable E5 subscription
Expires on Jan 5, 2022

Disabled ▼

⚠ With security defaults disabled, your organization is vulnerable to common identity-related attacks.

99.9% of account compromise could be stopped by using multifactor authentication, which is a feature that security defaults provides.

Microsoft's security teams see a drop of 80% in compromise rate when security defaults are enabled.
